

You're Invited to Attend These *FREE* Events:

-Technical Seminar -PhaseRaiser® Field Demo -Laminated Pole Plant Tour -Wind Farm Tour

August 4, 2009 - Rochester, MN

These exciting events will give attendees an opportunity to watch an energized structure lift, tour a laminated pole manufacturing plant and tour a wind farm that is connected to the grid via a laminated wood pole transmission line.

The recent rise in new wind generation is increasing the capacity demands of existing transmission lines nationwide. Dairyland Power Cooperative, a Wisconsin based utility, is using the patented PhaseRaiser® Structure Lifting System to increase the conductor clearance on an ENERGIZED 161kV transmission line near Rochester, Minnesota. Watch as line crews raise an H-frame structure an additional 10 feet without taking the line out of service.

The seminar will be held in Rochester and will include the project overview, data collection and analysis methods, as well as an in depth look at the structure lifting process and development of the system.

Preliminary Agenda:

Monday, August 3

- Welcome Reception and Dinner at Hotel

Tuesday, August 4

- Breakfast
- PhaseRaiser Seminar
- Structure Lift
- Lunch/E-LAM® Presentation
- Laminated Pole Plant Tour
- Wind Farm Tour
- Recap Reception and Dinner

Event Locations:

*Seminar - Best Western Soldiers Field,
401 6th St. SW
Rochester, MN 55902*

Field Day - Just South of Rochester

*Laminated Pole Plant Tour -
Albert Lea, MN*
