-Evening Reception & Dinner

Tuesday, October 25:

-Breakfast

-Seminar

-Lunch

-Observe Energized 161kV Structure Lift

**THIS FREE EVENT QUALIFIES
FOR PDH CREDITS**

Central Iowa Power Cooperative (CIPCO) is raising one hundred thirty energized 115kV & 161kV wood H-frame structures in Iowa.

LWS will be conducting a technical seminar that will focus on NERC thermal rating compliance and the options available for increasing conductor clearance.

Attendees will witness crews using the PhaseRaiser[®] system to raise an energized H-frame transmission structure in the field.
