

Laminated Wood Alley Structures

Delivery in 4 to 6 Weeks*

Aesthetically Pleasing

Low Cost

The logo consists of the letters 'LWS' in a bold, green, sans-serif font. The letters are slightly shadowed to give them a three-dimensional appearance.

Laminated Wood Systems, Inc.

Laminated wood alley structures from LWS simplify and beautify a complex project.

An economical alternative to costly underground rebuild.

Wood has long been the natural and economical choice for use in many utility applications. The natural beauty of laminated wood blends into the environment far better than steel or concrete and its low cost, **4 to 6 week delivery*** and engineered strength make it the all-around smart choice.

Engineered wood structures from LWS bring all of the benefits of laminated wood into today's alley design requirements. LWS can provide the highest quality laminated wood structures fast and, in most cases, at a much lower cost than steel.

Contact LWS or the nearest LWS representative with your next alley structure project requirements and find out how the benefits of laminated wood can be a part of your *smart* solution.

**Typical delivery upon drawing approval and receipt of order.*
